About us

Southwicks are a family run business serving the south of England - pride themselves in combining high quality materials and workmanship with competitive pricing. A friendly personal service with 100% customer satisfaction.

We provide and install everything you need, giving one complete package! Our camping pods are designed to be ultra tough, withstand all weathers and have minimal ongoing maintenance. These Eco Pods ensure fewer carbon footprints and are more energy saving thanks to thermo-wood construction. Complete with insulation and electrics. Built to last and expertly installed.

Once enquired, we provide a FREE no-obligation detailed site survey to help you determine your needs, following which you will be sent a full fixed-price quotation confirming any special requirements.
